MEAT SHREDDER BASIC KITCHEN TOOL

Shredded meat can be used in various dishes, whether it's beef, chicken, or pork. If you frequently shred meat in bulk for multiple meals or frequently shred meat, you may want to consider meat shredder claws. The tool fits in your hand like an extension of your arms, and you shred the meat in the same way you would with forks.

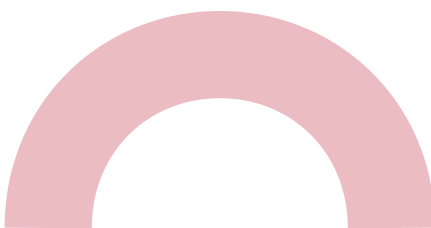

WHAT CUTS TO USE FOR SHREDDED MEAT

Shredded Beef and Pork: When looking for the best beef for shredding, you'll notice that many recipes call for beef chuck pot roast. Typically, shredded pork recipes call for pork shoulder roast. These cuts originate from the animal's shoulder and contain marbling and connective tissue that softens during cooking. This allows for easy separation of the meat into moist, tender chunks. Beef brisket, which is derived from the foreshank/brisket region of the animal, is also occasionally used to make shredded beef. These economical cuts require a long, slow cooking time. While cooking shredded meat can be done on the stovetop, in the oven, or on the grill, we believe the slow cooker does an excellent job. Even better, it requires little maintenance.

Shredded Chicken: Chicken thighs are exceptionally moist and flavorful, making them an excellent choice for shredded meat. However, if you prefer white meat, you can substitute boneless, skinless chicken breasts.

SUGGESTIONS FOR SERVING SHREDDED MEAT

There are various options for shredded meat. Listed below are a few of our favorites.

- **Use in tacos:** Cook and stir shredded meat with enchilada sauce or salsa until thoroughly heated. Fill taco shells or warm tortillas halfway with the mixture. Toppings such as lettuce, cheese, tomatoes, olives, and/or avocado may be added. Consider experimenting with these shredded chicken tacos.
 - **Stuff an Enchilada:** Take a look at this completely customizable recipe for enchiladas.
 - **Fill a Sandwich with:** Cook and stir shredded meat until heated through with your favorite barbecue sauce or sloppy joe sauce. Fill toasted sandwich rolls or buns halfway with the mixture. To serve, garnish with thinly sliced cheese or shredded cheese and/or coleslaw, if desired.
 - **Combine into a Chili:** When making chili, use shredded meat in place of ground meat. Simply omit the browning step and add the cooked shredded meat when adding the canned beans.
 - **Use in salad:** To incorporate into a salad, cook and stir shredded meat, salsa, thawed frozen corn, and canned black beans until thoroughly heated. Distribute over leafy greens and garnish with chopped tomatoes, green sweet peppers, sliced green onions, chopped avocado, shredded cheddar cheese, additional bottled salsa, and sour cream.
