The Vision

Building a globally recognized
wellness brand

Welcome to Solara Studios

Our boutique wellness studio is designed to give women **flexible, empowering ways to move, train, and connect**. At the heart of the space are our expert-led reformer Pilates classes, delivered by experienced instructors who focus on strength, alignment, and full-body conditioning.

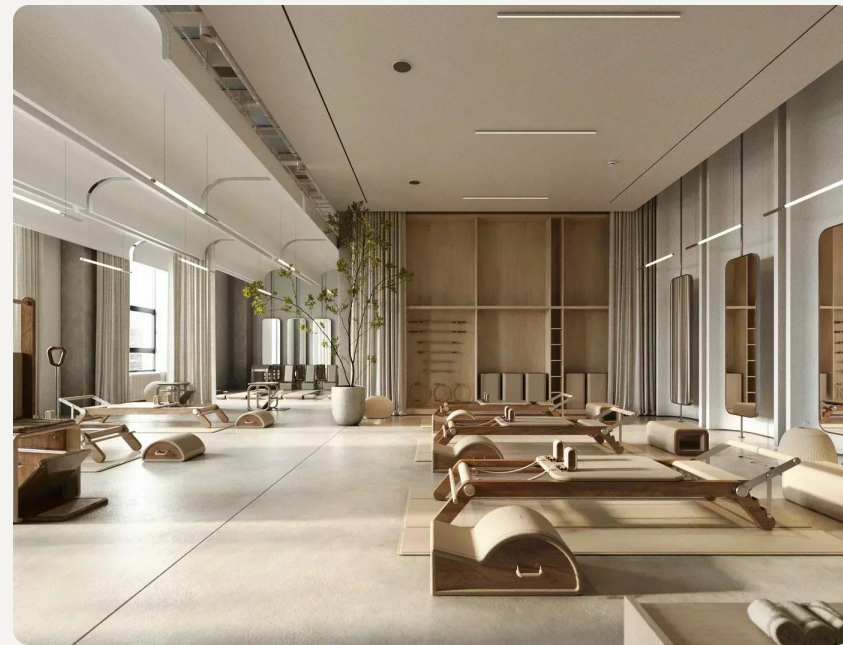

Beyond traditional classes, the studio also offers automated reformer sessions after hours — allowing members to train whenever it suits them using guided programs displayed on in-studio screens.

"A key part of what makes our concept unique is the combination of the 'Pilates princess' aesthetic workout with real strength training designed to build and grow glutes."

Our Goal

Build a flagship studio that proves the model and scales into a franchise brand across Bali and internationally.

The Market Gap

Current Market Reality

Most competitors focus on **single disciplines** with limited brand and community layers:

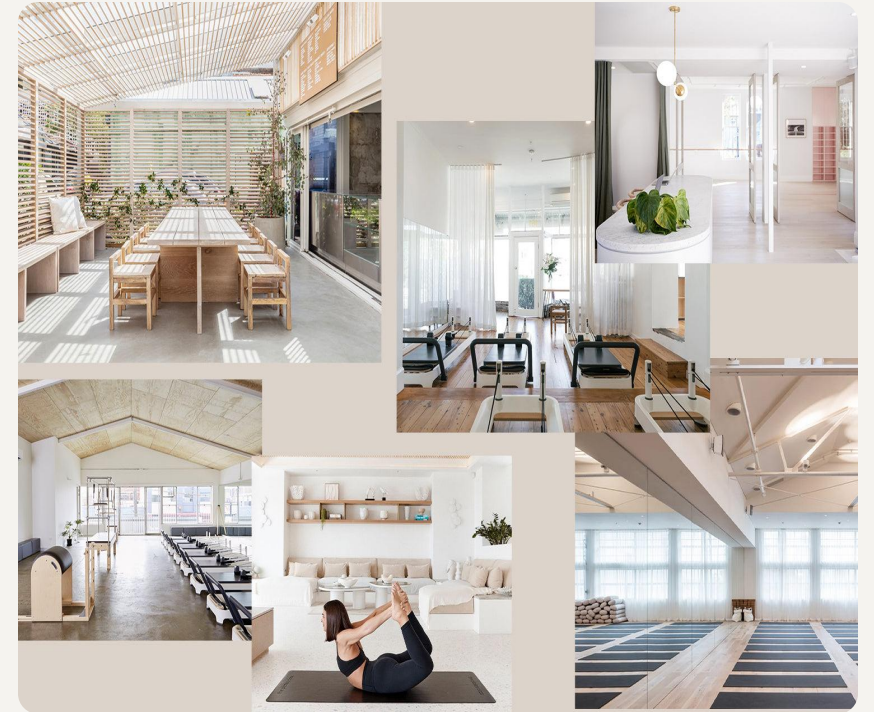

- Pilates OR yoga only
- Structured classes only
- Limited community layer
- No strength training

Solara's Unique Position

A **hybrid studio** combining multiple disciplines in one premium space:

- ✓ Reformer Pilates
- ✓ Glute-focused strength
- ✓ Community + lifestyle
- ✓ Flexible on-demand classes

Competitive Advantage

- 1 Hybrid Model**
Pilates + strength in one location
- 2 Community Focus**
Events, workshops, social hub
- 3 Flexible Access**
Automated sessions, 24hr gym
